

## Gifts of Grain

Give a Gift of Grain is a new initiative of the Caldwell Area Hospital and Health Foundation to promote and maintain quality healthcare in the Caldwell area.

***Equipping Our Health Care Future*** is our current campaign to assist the Sumner County District #1 new facility.

The Foundation is offering farmers and landowners another opportunity for charitable giving. By donating bushels of grain to the Foundation, the elevator will write the check to the Foundation and the donor does not recognize the income from the sale of the grain.

The Caldwell Area Hospital and Health Foundation is a 501 (c) 3 non-profit organization. Consult your tax advisor for professional advice for your individual tax situation.
